SPECIAL SESSION LEGISLATURE IS PROMISED

Phoenix, Dec. 17.—Governor Campbell continues to be deluged with letters from the east, asking him when he is going to call a special session of the legislature for the purpose of ratifying the national women's suffrage amendment.

The governor has one answer to all such inquiries, namely, that he will call the session in plenty of time to allow the women of the country opportunity to vote at the next election, and that the selection of the proper time is a matter for his own sweet will and discretion and not for outside dictation.

Suggestions also continue to pour in as to what subjects the governor should include in his call. If all these suggestions were to be followed, the session, which is scheduled to be held in March, might continue through the summer months.

Just at present the governor does not believe that there are any state questions of sufficient importance to justify the expense of a protracted session. For that reason he deems it advisable to hold the consideration of the legislators to the one matter of ratifying women's suffrage. This will be the only subject included in the call unless something unforeseen arises between now and March, it is officially announced.
